network

Prototype Version 1.0

The gutenshare network is a web platform independent from lecturers and educational institutions, for students by students, to share study related resources.

Once signed up, you can start uploading documents, you are willing to share. Provide as much information about your document as possible to make sure other users can find it.

Besides the search functionality, you are able to easily locate documents through the gutenshare browser. As means of quality control you can rate resources and leave feedback in the comment section.

Start searching, downloading and sharing content right now by visiting <http://gutenshare.network/registration> for the initial registration.

Download page 2 - 3

Upload page 4

Prerequisites

User has signed up and is logged in.

Goal

Retrieve a list of downloadable documents according to your search criteria.

Get Documents

Title	Type	Uploaded by	File type
Trial exam	Test	arik	pdf
Manual for Gutenshare	Transcript	kaspar	pdf
PSIT Summary	Summary	alicia	docx
Communication diagram	Exercise	arik	pdf

D-1

Do a quick **search** for a document's **title**. This option is available on all pages of the gutenshare network and redirects you to the browsing page.

D-3

List all documents of the selected institution, department and/or course by clicking «Get Documents». Upon success the results table (D-4) will be populated.

D-4

The search results table displays all **available documents**.

D-5

Click this button to be redirected to the documents **detail page** where you can **download** the document.

Hint: Selecting only a department will give you all documents available across all institutions that have a corresponding department.

Go to detail page

Prerequisites

User has chosen to view the detail page of a document.

Goal

Download a document.
